

2025年9月5日 星期五 Sept. 5th Fri.		
会场3：3B（3F） HALL 3：3B		
时间 Time	内容 Agenda	主持/讲者 Moderator / Speaker
08:30-12:35	Gynecologic Oncology (English)	
08:30-09:40		主持人Moderator：Aranya Yantapant
08:30-08:50	Minimally Invasive Surgery in Gynecologic Oncology: The Korean Experience. 妇科肿瘤微创手术：韩国经验	Jae Kwan Lee
08:55-09:15	Nerve Sparing Laparoscopic Radical Hysterectomy. 保留神经的腹腔镜根治性子宫切除术	Boom Ping Khoo
09:20-09:40	Can Clinical Trial Evaluate Surgical Method? 临床试验能否评估手术方法？	Kuan-Gen Huang
09:45-10:55		主持人Moderator：TBC
09:45-10:05	Clinical Trial Update in Cervical Cancer Surgery. 宫颈癌手术的临床试验更新	Marie Christine Valerie R. Mendoza
10:10-10:30	Impact of Molecular Classification of Endometrial Cancer in Minimally Invasive Surgery. 子宫内膜癌分子分型对微创手术的影响	Renee Vina Gavino Sicam
10:35-10:55	Diagnosis and Treatment of Uterine Adenosarcoma. 子宫腺肉瘤的诊断与治疗	丁鼎 Ding Ding
11:00-12:10		主持人Moderator：TBC
11:00-11:20	Expanding Access to Minimally Invasive Gynecologic Oncology Surgery in a Resource-Limited Setting: Lessons from the Philippine General Hospital. 在资源有限地区拓展妇科肿瘤微创手术的可及性：菲律宾总医院的经验	Doris Benavides
11:25-11:45	Where Is the Limitation of Laparoscopic Surgery for GYN Cancer? 妇科癌症腹腔镜手术的局限性在哪里？	Hiroyuki Kanao
11:50-12:10	The Current Data on the Use of Uterine Manipulator in Gynecologic Oncology Minimally Invasive Surgery. 妇科肿瘤微创手术中子宫操纵器使用的当前数据	Angelito Magno
12:15-12:35	Oral Presentation (口头发言)	主持人Moderator：TBC
12:15-12:25	Targeting HO-1 to Overcome Cisplatin Resistance in Ovarian Cancer: A Potential Therapeutic Strategy via NCOA4-Mediated Ferritinophagy-Ferroptosis Axis. 靶向HO-1克服卵巢癌顺铂耐药：通过NCOA4介导的铁蛋白自噬-铁死亡轴的潜在治疗策略	Huan Wang
12:25-12:35	NRF2 Promotes the Migration of Ovarian Cancer Cell Lines via Targeting TAGLN Mediated Epithelial-Mesenchymal Transition/NRF2. 通过靶向TAGLN介导的上皮-间质转化促进卵巢癌细胞系迁移	Ling-Jie Bao
