

2025年9月6日 星期六 Sept. 6th Sat.		
会场4：3CD（3F） HALL4：3CD		
时间 Time	内容 Agenda	主持/讲者 Moderator / Speaker
13:45-17:50	Endometriosis/Adenomyosis (English)	
13:45-14:55		主持人Moderator：Kuan-Hao Tsui，刘惜时Xi-Shi Liu
13:45-14:05	New Strategies to Fight Endometriosis. 对抗子宫内膜异位症的新策略	Majeda Jallad
14:10-14:30	Specialized MRI in Pelvic Endometriosis. 盆腔子宫内膜异位症的专项 MRI 检查	Ritu Kashikar
14:35-14:55	Surgical Management of Endometriosis of the Parametrium and Sacral Plexus. 子宫旁及骶丛子宫内膜异位症的手术管理	Abhishek Mangeshkar
15:00-15:45		主持人Moderator：Vahan Manvelyan
15:00-15:20	Application of ICG in endometriosis surgery. 吲哚菁绿（ICG）在子宫内膜异位症手术中的应用	Chung-Hsien Sun
15:25-15:45	MDT Diagnosis and Treatment of Intestinal Endometriosis. 肠道子宫内膜异位症的多学科诊疗（MDT）	戴毅 Yi Dai
15:50-16:35		主持人Moderator：
15:50 - 16:10	How to Manage Complications in Endometriosis Surgery. 如何处理子宫内膜异位症手术中的并发症	Mohammad Haekal
16:15 - 16:35	Recognition and Management of Major Complications After Surgery for Endometriosis. 子宫内膜异位症术后严重并发症的识别与处理	易晓芳 Xiao-Fang Yi
16:40-17:50	Oral Presentation (口头发言)	主持人Moderator：
16:40-16:50	A Retrospective Study on Clinical Characteristics and Surgical Outcomes of Ovarian Endometriosis versus Ovarian Cystadenoma in Adolescents. 青少年卵巢子宫内膜异位症与卵巢囊腺瘤临床特征及手术结局的回顾性研究	杨叶平 Ye-Ping Yang
16:50-17:00	Clinical Characteristics and Management of Thoracic Endometriosis Syndrome: Comparison between Catamenial Pneumothorax and Catamenial Hemoptysis. 胸腔子宫内膜异位症综合症的临床特征及处理：与经期气胸和经期咯血的比较	Yu-Hong Liu
17:00-17:10	Intravascular Adenomyomatosis with Deep Endometriosis: A Rare Case Report and Literature Review. 伴深部子宫内膜异位症的血管内子宫腺肌病：罕见病例报告及文献复习	Jing-Yao Ruan
17:10-17:20	Clinicopathological and Molecular Features of Deep Infiltrating Endometriosis Associated Malignant Transformation: A report of two. 深部浸润性子宫内膜异位症恶变的临床病理及分子特征：2例报告	谷越 Yue Gu
17:20-17:30	Abnormal Thromboelastography Reveals Hypercoagulability in Adenomyosis. 异常血栓弹力图显示子宫腺肌病患者存在高凝状态	Jilan Jiang
17:30-17:40	Development of a Predictive Model for Recurrence Following Conservative Surgery Combined with Medical Therapy in Adenomyosis. 在子宫腺肌症中采用保守手术联合药物治疗后复发预测模型的建立	李吻雨 Wen-Yu Li
17:40-17:50	Exploring and comparing clinicopathological characteristics of mucosal tubal endometriosis versus serosal tubal endometriosis. 探索并比较黏膜性输卵管子宫内膜异位症与浆膜性输卵管子宫内膜异位症的临床病理特征	张朵 Duo Zhang
