

**Professor Sun Jing**  
China

Professor Sun Jing is a Chief Physician of Shanghai First Maternity and Infant Hospital. She is also a doctoral tutor of Shanghai Tongji University. She is an expert in complicated gynecological diagnosis and treatment as well as minimally invasive gynecological surgery preserving reproductive functions, including single-port laparoscopic surgery, VNOTES and hysteroscopic surgery etc. She has a record of more than 30,000 cases of laparoscopic and hysteroscopic surgeries.

She is the co-chairman of Reproductive Surgery Special Interest Group of APAGE. She is a member of the obstetrics and gynecology branch of China's Medical Association. Meanwhile, she is the chairman of the Minimally Invasive and Noninvasive Professional Committee of Shanghai Medical Doctor Association. She is also the Deputy Group Leader of the gynecological endoscopy cooperation group in east China.

She has been awarded the 2<sup>nd</sup> prize of Shanghai Medical Science and Technology Progress Award and the 3<sup>rd</sup> prize of Shanghai Science and Technology Progress Award. She is also the winner of the government special allowance and the Shanghai Leading Talent Project.

**Dr. Weihua Lou, Chief Physician, M.D.**

- Deputy Director of Department of Obstetrics and Gynecology, Renji Hospital, School of Medicine, Shanghai Jiao Tong University.
- Director of Department of Obstetrics and Gynecology at the Southern Division of Renji Hospital.

**Biography:**

Engaged in clinical, research, and teaching activities within gynecological oncology, this professional excels in minimally invasive surgery for diverse, challenging gynecological conditions and the comprehensive treatment of gynecological malignant tumors. Annually performing over a thousand gynecological laparoscopic surgeries, including more than 300 radical procedures for various malignancies, they have achieved a leading position in China. Their surgical complication rate notably falls below the average reported in literature, highlighting their expertise. They employ individualized intervention strategies in the standardized, comprehensive treatment of gynecological malignant tumors. Advocating for innovative minimally invasive laparoscopic surgeries like vaginal natural orifice transluminal endoscopic surgery (V-NOTES), they have significantly advanced the field towards “non-invasive” techniques. Their surgical accomplishments have gained international recognition and patient acclaim, being published in renowned journals.
